

Quality Policy

Compulink strives each day to be a leader in cable and harness manufacture in the aerospace, defense, and OEM high reliability marketplace. Our policy is to meet or exceed Customer directed Quality requirements, applicable statutory or regulatory requirements while providing on-time deliveries at a competitive price.

Product Quality involves every employee at Compulink and includes the work of our Suppliers. Each team member is responsible for their input to the procurement, manufacture, support, delivery, or service provided to our Customers. Every Supplier needs to be likewise committed to this Quality objective.

The business philosophy of Compulink focuses on commitment to Continual Improvement and Customer satisfaction in all activities undertaken.
